A coal famine is resulting from the general strike of coal miners throughout the country and many manufacturing establishments are shutting down as a result.

Nothing for wage-earners; everything for trusts, is the new motto on the Democratic flag.—Cercado Advance.

Yes, every compromise brings the tariff bill nearer the McKinley law.

The monthly report of the Frankfort prison shows that the revenue for April from the chair plant paid the entire expense of the prison and made \$243 above that amount.

Let every Democratic candidate keep himself within very moderate bounds in his canvass before the primary. Save your enthusiasm and labor to fight the Republicans with. By all means keep down strife and hard feelings in the ranks of the party.

The Assistant Secretary of War has directed the discharge of two more Indian companies. The scheme of enlisting Indian recruits into the regular army begun with so much expectation is now practically abandoned.

Judge Thomas M. Cooley, the great authority on constitutional law, in an address to his law students at Ann Arbor yesterday, said individuals had no right to go to the seat of government and present petitions in person. The wheels of government might thus be stopped. He was referring to the Coxe movement.—C. J.

The tariff bill has been so amended that enough votes to pass it are said to be assured. Hill refuses to act with the party, of course. If he should now publicly repeat the four words which once so enthused a large audience—"I am a Democrat"—somebody would doubtless arise and shout four other words containing more truth than ever the above did—"you are a liar."

Breckinridge made a remarkable speech in Lexington last Saturday in behalf of himself and his candidacy for Congress. Excitement ran high and an immense crowd was present. He captivated his audience. On Monday at Paris he made the greatest effort of his life. But there is much doubt about whether he will be re-nominated.

The true Democratic senators have found it impossible to pass a genuine tariff for revenue bill and have most loyally and patriotically proceeded to secure the next best thing possible. They have made many liberal concessions to those few Senators who have proved themselves false to their party's principles and expectations, believing that anything in the direction of tariff reform is better than the McKinley law. The bill agreed upon is far from satisfactory to the best Democrats, but it is the best that can be done. Enough votes are assured to pass the bill and it will probably go through in a month or less.

Hart for Congress.

Hon. Rolla K. Hart was nominated by acclamation by the Democratic Congressional Convention which met at Maysville last Wednesday. Every county in the district instructed for him and the utmost harmony and satisfaction prevailed. Mr. Hart has a well earned reputation as a fighter and a winner and the Democrats are fortunate in having so unanimously agreed upon him as their candidate. He is remarkably energetic, an able man, and has had sufficient legislative experience to fit him for a most efficient discharge of the duties of our Representative in Congress.

Kentucky Halted.

The Cincinnati Post says: Representative Berry called at the State Department this morning to close the deal whereby W. U. Masterson, of Carrollton, was to land in the Consular service. His name was sent to the President with Gresham's and Ul's recommendation. The President returned the papers to the Kentuckian with the statement that Kentucky had already received more than its quota, and that the Consul at Fayal should go to some State that was not loaded down with Federal pap. This calls the Kentucky delegation to a halt in the way of offices.

Coxey, Browne and Christopher Columbus Jones, the leaders of the "Army of the Commonwealth," were found guilty of violating the laws at Washington. Sentence will be imposed by the court later.

GLENWOOD.

Dear Editor: I have just returned from Fallsburg where I have been for 2 or 3 days taking a course of lectures on putting a man under the water or pouring him on his head. We heard good argument, but good speakers, but they could not convince us but what the old fashion was the best, 2 strip off an go in head foremost.

We consider this event 1 of the greatest of the season, and I am glad that it is over, for it will give the people a rest for a while, or until the bait ball season begins 2 warm up an circulates among the boys. The great crowd that attended these lectures no doubt looked for sweetness, an a great munny found what they sought. I don't say that hits hurts every body to go 2 these debates, but I always hate 2 set for 2 ours an listen 2 a feller pla the same tune. But after all an gle 2 hat for his seldom I go where I put the big pot in the little one as was done on this occasion.

The big meetings I guess has about cooled down, for there is not near so many as there was when I rote 2 you last an cripin time is on hand an the gud peple will haft 2 lay by their bibles an take up the ho.

Tother day I saw my old friend Eaf Lockwood of Vessie, I was awful glad 2 see Eaf and we had several gud lads how we use to hav 2 put our shoulders 2 the wheel when we was boys. Eaf told me that he was going down 2 Louisville 2 learn 2 be a doctor an sel medisin.

Mr. Twinom of Mavily, down in Bond county, has bin hurt for 2 or 3 das visitin his son Frank. Mr. Twinom is in his 80th year, an says he can cut an split 50 rales a day.

Mis Erny Webb, who has bin off to Lexington 2 hav her education forwarded on a little, cum home yesterday 2 spend a few das with her parents.

We heard that sum 1 has a paper has a paper in circulation sum for the people 2 sine 2 see which beet at the debate, Mr. Justice or Mr. Glover. We dont beleav in him, but we wud haft 2 laf it they wud settle the question like Corbit an Michel did there; fur you now a man can not live very long in this world without havin his curiosity excited sum times.

We was tickled when we red the Vessie letter in last weeks Nus, how the riter spred hit on, an at the same time he knowed there was out a word of truth in his hole letter, but that is his business, not mine.

The boys had a gud laf at Burt Bush, a yung man working at Mr. Wesley Webb's. Burt went out to the barn tother morning 2 feed a Muley steer Mr. Webb had in the barn, hit was dark in there, an the steer become enraged, an begun 2 but Burt an got him (Burt) so excited that he forgot where the dore was, an they gad hit up 1 side an down tother for several minites, when Mr. Webb herd the racket an went over and found Burt stickin 2 the wall like a bat, and hit was sum time be 4 he cud be perwaded 2 cum down.

We hear more talk about Coxies army now then anything else, an I beleve that there is plenty of recruits in this neighborhood who wud like 2 jine Miste Coxie if th wasnt afeard theyyd gi 2 fur awa menship any names, fur they mit think mine out 2 be included in the list.

Last Saturday a cloud busted sumwhere near here in the naber hood an in less then 2 minites the ground was covered with watter run in up hill an down till the branches an cricks was out of there banks. Much damage was dun 2 the corn that had gist bin planted, but sum thinks hit washed off all the cut worms which will be a gud thing for the farmer.

Mister Ivans, one of our best citizens has put up a grocery stoar in the back end of his house he says that he can sel things a heep cheaper then enybody else, es he has 12 dollars a month backen from Uncle Sam.

Candidates should get their announcements in the News right away, so the people may know who it is they must choose between. The News goes into every neighborhood in the county and those who do not take it borrow it. It is safe to say that four thousand persons in Lawrence county read it every week.

The announcement of Mr. J. J. Mann for the Democratic nomination for County Surveyor appears in this issue. Having been a teacher in Lawrence county schools for several years Mr. Mann is known to many of the people of the county—to a much greater number by reputation than by personal acquaintance, however. He is well educated and knows engineering and surveying both theoretically and practically. He was once assistant city engineer of his native city, Holyoke, Mass.

Sandy River Appropriation.

The question of whether or not the government work at this place will be resumed this season is about the most important problem in local circles; therefore, while in Washington last week we endeavored to find how the matter stood. We learned enough to show that Big Sandy has fared along with the best of them this year, even though the \$28,000 is not sufficient to carry the work to a point at which it can well be laid aside until next season for final completion.

In the first place the U. S. Engineers placed all estimates at a low figure, realizing that the appropriations would necessarily be light this year. Then it will be remembered that the Rivers and Harbors Committee made an average cut of about fifty per cent. in the estimates submitted by the Engineers. Big Sandy, however, was reported by the committee with the full amount asked by the Engineers. This was more liberal treatment than was accorded any other Kentucky river. Representative Paynter has long been a close friend to Chairman Blanchard, of the Rivers and Harbors Committee, and it was through his influence that the full amount was reported. We understand that Mr. Paynter made a strong effort for a larger appropriation before the committee. Failing in that he is now laboring in the House for an amendment appropriating an additional \$12,000 necessary to continue the work this season. But the clamor from Representatives from all parts of the country for such amendments is so great that, to be frank about it, there does not seem to be much room to hope for the Big Sandy amendment. We hope the prospects are not really so gloomy as they appeared to an inexperienced observer, but a short time will tell the tale.

LATER—The amendment providing for the increase in the appropriation was lost by a few votes in the House, but the Courier-Journal says—Representative Paynter will renew his fight for the increase in the appropriation for the Big Sandy in the Senate. He says the Senate will not doubt amend the Rivers and Harbors Bill, and that he will now bring to bear all the influence he can in the Senate to have them adopt his amendment, which was beaten by a few votes in the House. He will leave no stone unturned to get that \$40,000 appropriation.

George Fannin and A. J. Lawson came to town Wednesday to procure a license for the marriage of the latter to the former sister. They were in high spirits, especially after imbibing a goodly quantity of liquor and on their way out of town they had a horse race down the "lane." They were pursued by officers, and thanks to the fact that they were thrown from their horses near Jaws, Fannin was caught. He was taken at once before the Police Judge and confessed to drunkenness and disorderly conduct, and cost him about \$9. Lawson escaped with his license and was doubtless on hand to play the leading part in the wedding that evening. Fannin followed as soon as he got out of court. The grand jury will look into the offense of racing.

AS A CLEANSER of the blood, nothing sweeps as clean as Dr. Pierce's Golden Medical Discovery. It purifies the blood as well as enriches it. The truth is, an emulsion of cod liver oil is good for building up fat—no doubt about it. But—ugh! a weak stomach loathes it.

Fortunately, there's a tissue-builder, that's even better for making healthy flesh. Pleasant in taste, it doesn't result. That's the "Discovery."

It goes to work in the right way, by regulating, cleansing, and repairing all the organs of the body.

When the germs of disease are round about us we do not all get them. Why? Some of us are in too good a condition. The germs of Consumption, Grippe, Malaria, and all the infectious diseases, pass you by if you are strong to resist their attack. Under your self-governed putting your blood and liver in a healthy state.

In all blood-poisoned diseases, if the "Discovery" fails to benefit or cure, your money is returned.

No other medicine of its kind can be sold so.

PRIMARY ELECTION.

Democrats Will Nominate County Officers June 16.

The Democratic Executive Committee of Lawrence county met last Saturday forenoon for the purpose of deciding upon a plan for making nominations for county officers. It was the fullest county committee meeting held for years, every precinct being represented, and most of them by more than one committeeman. This is very encouraging, but no more so than the spirit displayed by every member present to act unanimously and for the best. After a lengthy consideration of all the proposed methods of choosing a ticket the committee adjourned to meet again in the afternoon. After the Congressional convention was over the committee again met and called in all the candidates present—and nearly all were there. The views were heard, and all the candidates were heard, and the result showed the greatest number to be in favor of a primary election. The committee again took up the matter and decided to hold a primary election. The conclusion was reached that under the restrictions of the new law a primary election is the fairest to all candidates and is the best means of getting the voice of the party as to who its standard bearers shall be. In other words, it was decided to be the most Democratic idea—which is always to allow the people to rule. June 9th was announced as the time for holding the election, but a subsequent investigation showed that the law required forty days' public notice to be given and this made it necessary to change the date to Saturday, June 16th. Polls will be opened from seven a. m. until four p. m., at the regular voting places in the various precincts of the county. Now, if the spirit which prevailed in the committee room will only pervade the candidates, every thing will be well. The canvass should be kept free from strife. The fact is, there should be no canvass. The greatest degree of harmony would result from a primary before which there had been no "hustling" for votes. To simply make your candidacy known and let the people do the rest would be the most commendable and profitable plan. The candidates for County Attorney have very sensibly agreed upon this plan, as will be seen by their card in this issue. Will not the others follow their example?

To the Voters of Lawrence County:

Believing as I do that the office should seek the man and not the man the office, and believing that there ought to be no confusion or dissension in the Democratic ranks, my opponent Green Skaggs and myself have agreed to make no canvass before the primary election, so as to allow each voter to go to the polls unbiased and say who shall make the race for County Attorney. If I am the one chosen I assure you that after I am nominated there shall be no lack of energy or work on my part to win, and I am not afraid but I can win it.

Yours,

TIP MOORE.

Election Laws.

Most every one is now acquainted with the stringent Kentucky election laws as regards the use of money, whiskey or other like means of influence upon voters. Remember that the law applies to primary elections exactly the same as to general elections. It is to be hoped that no candidate for a Democratic nomination has any disposition to resort to any such means, but the matter is mentioned for the good of any candidates or friends of candidates who may grow unduly enthusiastic in the race.

Three or four toughs went into the station at Nolan, W. Va., a few nights ago and attacked the operator. They beat him up severely, and checked one of the men severely, causing instant death. Up at Ceredo, W. Va., last Saturday night, a woman who was under arrest in the hands of a lot of Deputy U. S. As the train slowed up to round the curve near the Ceredo stopping place she jumped off, escaping injury, and later took another train bound for her mountain home, without being recaptured.—Ashland Daily News.

This is from the Winchester Democrat and we do not believe it is true: "The Prowler has heard of many queer decisions made by magistrates, but a verdict recently rendered by a Martin county weaver of the magisterial ermine is entitled to the blue ribbon. A man was recently arrested in that county on the charge of horse stealing. The case was tried before a country magistrate, who, after hearing the testimony, rendered a verdict that the accused should be hung! The decision completely took the wind out of the old lawyer, who was defending the prisoner, and it was only by a supreme effort on his part that he succeeded in carrying the case to the proper tribunal."

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BRICKS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says:

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good said of them. I know of many

Wonderful Cures

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of
